

A YOUTH MOVEMENT

For climate and sustainability

1-3 November 2018 | Thyagaraj Sports Complex, New Delhi

Climate Jamboree

Brief description of activities

Key Note Address

Listen to experiences shared by inspiring young achievers excelling and setting new examples in their respective fields.

Technical Session

Learn the latest, cutting-edge know-how in the discourse on climate change and sustainability from world-leading scientists and experts.

Capacity-building Workshops

Upgrade your skills for action around key sectors concerning environment, society, economy, culture and hence sustainability, from leading experts and renowned personalities.

Student Discussion Groups

Deliberate on cross cutting themes during eight, parallel, student discussion groups moderated by leading experts and organisations working on-ground on the respective themes.

Movers and Shakers – Youth Voice Sessions

Present ideas, solutions and recommendations to a panel of decision-makers ranging from government, corporate and media to other concerned areas as part of a panel of 8 youth-leaders identified and picked every day from the student discussion groups.

Entrepreneurs Zone

Meet and network with young entrepreneurs from around the country running successful, responsible and sustainable businesses and have the opportunity to hone your own entrepreneurial skills through dedicated workshops.

Change Makers

Get inspired by impactful stories of change from across India that contributed positively to the environment & society.

Live Labs

Observe and try your hands at life-changing technologies presented at the Live Labs from Google Earth, WWF, SELCO Foundation and other leading organizations.

Exhibition and Demo Zones

Visit demonstrations of sustainable alternatives and innovations from various organisations and institutes.

Activity Corners

Engage yourself at the creatively set up *WWF Activity Corner* – an experiential learning space addressing biodiversity concerns and human behaviour with Water Footprint Calculator, Give-up Campaign, floor games, crosswords, doodle pledge, creative expressions and other interesting activities.

Research Forum

Develop research skills and get exposure to the academic nitty-gritties of sustainability while having your queries answered and receiving advice on advanced studies in sustainable development.

Quiz

BEE Energy Quiz – On the spot quiz on *Energy*. Open to school and college students.

(create a pre-registration link)

Quiz on Waste – On the spot quiz on *Waste*. Open to all participants.

(create a pre-registration link)

Quiz on SDGs – Running quiz on the correlation of finale activities to the various SDGs. Open to all.

(create online form)

Games

Participate in innovative games and gaming ideas that support learning and promote action for sustainability.

Do It Yourself Workshops

Familiarise yourself with easy and handy, eco-friendly DIY ideas of use in everyday life.

Opinion-Polls and Social Media Campaigns

Voice your opinion in online opinion-polls and social media campaigns and communicate your message to an international audience through the large fan-base of Climate Jamboree.

Art for Sustainability

Watch curated performances and displays of dance, music and theatre productions and visual art installations promoting action and dialogue for sustainable development.

Films and Documentaries

Attend rolling screenings of acclaimed films and documentaries on a range of issues concerning sustainability, followed by an interaction with the film makers.

Live Performances

Experience live performances by award-winning artist groups – Ao Naga Choir, Daastan Live and many more.
